## Subject Index

- acidity
  - Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 135
- active center
  - Study on the active center of  $\text{Ga}_2\text{O}_3/\text{HZSM-5}$  catalyst 259
- alkali compounds
  - Alkali compounds and copper chromite as low-temperature slurry phase methanol catalysts 105
- alkali sulphate
  - Oxidative coupling of methane over alkali sulphates in the presence and absence of tetrachloromethane 55
- Aluminosilicate catalyst
  - Ethylation of ethylbenzene over some aluminosilicates with molecular sieve structure 173
- Amberlyst 15
  - Conversion of methanol and isobutanol to MTBE 223
- aromatization
  - Propane aromatization over Pt-Tl/ZSM-5 123
- benzene
  - Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 135
- benzene hydrogenation
  - Benzene hydrogenation and hydrogenolysis of n-butane on Rh/H(x)NaY zeolite catalysts 5
- bimetallic catalysts
  - Propane aromatization over Pt-Tl/ZSM-5 123
- bimolecular processes
  - Catalytic cracking of a binary mixture on zeolite catalysts 243
- binary mixture
  - Catalytic cracking of a binary mixture on zeolite catalysts 243
- biphenyl
  - Kinetic approach in the comparison of supported and unsupported ternary nickel-ruthenium-sulphur compounds in hydro-treating reactions 79
- butane oxidation
  - Incorporation of promoter elements into the crystal lattice of  $(\text{VO})_2\text{P}_2\text{O}_7$  and its promotion effects on the oxidation of n-butane to maleic anhydride 281
- butanol dehydration
  - Preparation and catalytic activity of titanium pillared montmorillonite 23
- catalyst
  - Catalyst characterization. Variation of several parameters with the deactivation/regeneration cycles 17
- catalyst characterization (BET)
  - Preparation and catalytic activity of titanium pillared montmorillonite 23
- catalyst preparation
  - Dependence of selectivity on the preparation method of copper/ $\alpha$ -alumina catalysts in the dehydrogenation of cyclohexanol 233
- chromatographic techniques
  - Adsorption parameters of some  $\text{C}_5\text{-C}_8$  paraffinic hydrocarbons on platinum-alumina by gas chromatographic pulse techniques 35
- concurrent synthesis
  - Alkali compounds and copper chromite as low-temperature slurry phase methanol catalysts 105
- copper
  - Synthesis and reactivity of copper-containing non stoichiometric spinel-type catalysts 69
  - Effect of water vapour and ammonia on the solid-solid interaction of Cu oxide with Y-type zeolite: Preparation of catalyst for reduction of nitric oxide with ammonia at low temperature. 269
- copper/ $\alpha$ -alumina catalyst
  - Dependence of selectivity on the preparation method of copper/ $\alpha$ -alumina catalysts in the dehydrogenation of cyclohexanol 233
- copper addition
  - Alcohol synthesis from syngas over nickel catalysts: Effect of copper and lithium addition 291
- copper chromite
  - Alkali compounds and copper chromite as

- low-temperature slurry phase methanol catalysts 105
- $\text{Cr}_2\text{O}_3/\text{Al}_2\text{O}_3$   
Catalyst characterization. Variation of several parameters with the deactivation/regeneration cycles 17
- cracking  
Reducibility of metals on fluid cracking catalyst 87  
Catalytic cracking of a binary mixture on zeolite catalysts 243
- cyclohexanol dehydrogenation  
Dependence of selectivity on the preparation method of copper/ $\alpha$ -alumina catalysts in the dehydrogenation of cyclohexanol 233
- cyclohexanone ammoximation  
Incorporation of titanium into the framework sites of Na-zeolites using  $\text{TiCl}_4$ : Catalytic activity in the ammoximation of cyclohexanone to cyclohexanone oxime L1
- deactivation/regeneration  
Catalyst characterization. Variation of several parameters with the deactivation/regeneration cycles 17
- dealkylation  
Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 43
- dehydrogenation  
Catalyst characterization. Variation of several parameters with the deactivation/regeneration cycles 17  
Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 43
- disproportionation  
Catalytic cracking of a binary mixture on zeolite catalysts 243
- DTA  
Preparation and catalytic activity of titanium pillared montmorillonite 23
- electroless plating  
Dependence of selectivity on the preparation method of copper/ $\alpha$ -alumina catalysts in the dehydrogenation of cyclohexanol 233
- etherification  
Conversion of methanol and isobutanol to MTBE 223
- Ethylbenzene ethylation  
Ethylation of ethylbenzene over some aluminosilicates with molecular sieve structure 173
- FCC  
Reducibility of metals on fluid cracking catalyst 87
- FT-IR  
Benzene hydrogenation and hydrogenolysis of *n*-butane on  $\text{Rh}/\text{H}(x)\text{NaY}$  zeolite catalysts 5
- gallosilicate catalyst  
*n*-Hexane aromatization on synthetic gallosilicates with MFI structure 205
- heterogeneous catalysts  
Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 135
- hexane aromatization  
*n*-Hexane aromatization on synthetic gallosilicates with MFI structure 205
- hydrocarbon adsorption  
Adsorption parameters of some  $\text{C}_5$ - $\text{C}_8$  paraffinic hydrocarbons on platinum-alumina by gas chromatographic pulse techniques 35
- hydrocracking  
*n*-Heptane hydrocracking over a sulfided  $\text{NiMo}/\text{Y}$  zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 163
- hydrodesulphurization  
Kinetic approach in the comparison of supported and unsupported ternary nickel-ruthenium-sulphur compounds in hydrotreating reactions 79
- hydrogen adsorption-desorption  
Study on the active center of  $\text{Ga}_2\text{O}_3/\text{HZSM-5}$  catalyst 259
- hydrogenation  
Kinetic approach in the comparison of supported and unsupported ternary nickel-ruthenium-sulphur compounds in hydrotreating reactions 79  
Identification of nickel species and their interaction with the support in Ni-silica catalyst precursor 183
- hydrogen sulfide  
*n*-Heptane hydrocracking over a sulfided  $\text{NiMo}/\text{Y}$  zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 163

- hydrolysis
  - Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 43
- imine
  - Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 43
- iminium cation
  - Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 43
- impregnation
  - Dependence of selectivity on the preparation method of copper/ $\alpha$ -alumina catalysts in the dehydrogenation of cyclohexanol 233
- infrared spectroscopy
  - Alcohol synthesis from syngas over nickel catalysts: Effect of copper and lithium addition 291
- intercalation
  - Preparation and catalytic activity of titanium pillared montmorillonite 23
- IR
  - Preparation and catalytic activity of titanium pillared montmorillonite 23
- isobutanol
  - Conversion of methanol and isobutanol to MTBE 223
- lithium addition
  - Alcohol synthesis from syngas over nickel catalysts: Effect of copper and lithium addition 291
- low temperature
  - Alkali compounds and copper chromite as low-temperature slurry phase methanol catalysts 105
- maleic anhydride synthesis
  - Incorporation of promoter elements into the crystal lattice of  $(VO)_2P_2O_7$  and its promotion effects on the oxidation of *n*-butane to maleic anhydride 281
- metal area
  - Identification of nickel species and their interaction with the support in Ni-silica catalyst precursor 183
- methane conversion
  - Oxidative coupling of methane over alkali sulphates in the presence and absence of tetrachloromethane 55
- methanol
  - Alkali compounds and copper chromite as low-temperature slurry phase methanol catalysts 105
  - Conversion of methanol and isobutanol to MTBE 223
- methyl formate
  - Alkali compounds and copper chromite as low-temperature slurry phase methanol catalysts 105
- MFI structure
  - n*-Hexane aromatization on synthetic gallosilicates with MFI structure 205
- Molecular sieve structure
  - Ethylation of ethylbenzene over some aluminosilicates with molecular sieve structure 173
- molybdenum
  - n*-Heptane hydrocracking over a sulfided NiMo/Y zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 163
- montmorillonite
  - Preparation and catalytic activity of titanium pillared montmorillonite 23
- MTBE
  - Conversion of methanol and isobutanol to MTBE 223
- n*-butane hydrogenolysis
  - Benzene hydrogenation and hydrogenolysis of *n*-butane on Rh/H(*x*)NaY zeolite catalysts 5
- n*-heptane
  - n*-Heptane hydrocracking over a sulfided NiMo/Y zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 163
- nickel
  - Reducibility of metals on fluid cracking catalyst 87
  - n*-Heptane hydrocracking over a sulfided NiMo/Y zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 163
- nickel-ruthenium sulphides
  - Kinetic approach in the comparison of supported and unsupported ternary nickel-ruthenium-sulphur compounds in hydrotreating reactions 79
- nickel-silica catalyst
  - Identification of nickel species and their

- interaction with the support in Ni-silica catalyst precursor 183
- nonstoichiometry
  - Synthesis and reactivity of copper-containing non stoichiometric spinel-type catalysts 69
- NO selective reduction
  - Effect of water vapour and ammonia on the solid-solid interaction of Cu oxide with Y-type zeolite: Preparation of catalyst for reduction of nitric oxide with ammonia at low temperature. 269
- NO<sub>x</sub> abatement
  - Effect of water vapour and ammonia on the solid-solid interaction of Cu oxide with Y-type zeolite: Preparation of catalyst for reduction of nitric oxide with ammonia at low temperature. 269
- oxidative coupling
  - Oxidative coupling of methane over alkali sulphates in the presence and absence of tetrachloromethane 55
- oxygen titration
  - Reducibility of metals on fluid cracking catalyst 87
- palladium
  - Dealkylation of *N,N*-dialkylanilines over transition metal catalysts in the presence of ammonia, water and hydrogen 43
- partial oxidation
  - Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 135
- phenol
  - Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 135
- physical mixture
  - Study on the active center of Ga<sub>2</sub>O<sub>3</sub>/HZSM-5 catalyst 259
- pillared montmorillonite
  - Preparation and catalytic activity of titanium pillared montmorillonite 23
- platinum-alumina
  - Adsorption parameters of some C<sub>5</sub>-C<sub>8</sub> paraffinic hydrocarbons on platinum-alumina by gas chromatographic pulse techniques 35
- platinum-thallium
  - Propane aromatization over Pt-Tl/ZSM-5 123
- precipitation
  - Dependence of selectivity on the preparation method of copper/ $\alpha$ -alumina catalysts in the dehydrogenation of cyclohexanol 233
- promoter
  - Incorporation of promoter elements into the crystal lattice of (VO)<sub>2</sub>P<sub>2</sub>O<sub>7</sub> and its promotion effects on the oxidation of n-butane to maleic anhydride 281
- propene aromatization
  - Study on the active center of Ga<sub>2</sub>O<sub>3</sub>/HZSM-5 catalyst 259
- pulse techniques.
  - Adsorption parameters of some C<sub>5</sub>-C<sub>8</sub> paraffinic hydrocarbons on platinum-alumina by gas chromatographic pulse techniques 35
- reduction degree
  - Identification of nickel species and their interaction with the support in Ni-silica catalyst precursor 183
- Rh/HNaY
  - Benzene hydrogenation and hydrogenolysis of n-butane on Rh/H(x)NaY zeolite catalysts 5
- ruthenium sulphide
  - Kinetic approach in the comparison of supported and unsupported ternary nickel-ruthenium-sulphur compounds in hydrotreating reactions 79
- solid-solid ion exchange
  - Effect of water vapour and ammonia on the solid-solid interaction of Cu oxide with Y-type zeolite: Preparation of catalyst for reduction of nitric oxide with ammonia at low temperature. 269
- spinel
  - Synthesis and reactivity of copper-containing non stoichiometric spinel-type catalysts 69
- structural characterization
  - Catalyst characterization. Variation of several parameters with the deactivation/regeneration cycles 17
- structure
  - Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 135
  - Identification of nickel species and their

- interaction with the support in Ni-silica catalyst precursor 183
- syngas conversion  
Alcohol synthesis from syngas over nickel catalysts: Effect of copper and lithium addition 291
- tetrachloromethane  
Oxidative coupling of methane over alkali sulphates in the presence and absence of tetrachloromethane 55
- TGA  
Preparation and catalytic activity of titanium pillared montmorillonite 23
- thiophene  
Kinetic approach in the comparison of supported and unsupported ternary nickel-ruthenium-sulphur compounds in hydrotreating reactions 79
- titanium  
Incorporation of titanium into the framework sites of Na-zeolites using  $\text{TiCl}_4$ : Catalytic activity in the ammoxidation of cyclohexanone to cyclohexanone oxime L1
- TPD  
Preparation and catalytic activity of titanium pillared montmorillonite 23
- TPR  
Benzene hydrogenation and hydrogenolysis of n-butane on  $\text{Rh}/\text{H}(x)\text{NaY}$  zeolite catalysts 5  
Reducibility of metals on fluid cracking catalyst 87
- vanadium  
Reducibility of metals on fluid cracking catalyst 87
- vanadium/phosphorous/oxide  
Incorporation of promoter elements into the crystal lattice of  $(\text{VO})_2\text{P}_2\text{O}_7$  and its promotion effects on the oxidation of n-butane to maleic anhydride 281
- vanadyl pyrophosphate  
Incorporation of promoter elements into the crystal lattice of  $(\text{VO})_2\text{P}_2\text{O}_7$  and its promotion effects on the oxidation of n-butane to maleic anhydride 281
- XPS  
Benzene hydrogenation and hydrogenolysis of n-butane on  $\text{Rh}/\text{H}(x)\text{NaY}$  zeolite catalysts 5
- XRD)  
Preparation and catalytic activity of titanium pillared montmorillonite 23
- zeolite  
Effect of water vapour and ammonia on the solid-solid interaction of Cu oxide with Y-type zeolite: Preparation of catalyst for reduction of nitric oxide with ammonia at low temperature. 269
- zeolites  
Incorporation of titanium into the framework sites of Na-zeolites using  $\text{TiCl}_4$ : Catalytic activity in the ammoxidation of cyclohexanone to cyclohexanone oxime L1  
Benzene hydrogenation and hydrogenolysis of n-butane on  $\text{Rh}/\text{H}(x)\text{NaY}$  zeolite catalysts 5  
Propane aromatization over Pt-Tl/ZSM-5 123  
Investigation of zeolite catalysts for the direct partial oxidation of benzene to phenol 135  
n-Heptane hydrocracking over a sulfided NiMo/Y zeolite catalyst: reversible deactivation of the zeolite by sulfur-containing molecules 163  
Catalytic cracking of a binary mixture on zeolite catalysts 243
- ZSM-5  
Propane aromatization over Pt-Tl/ZSM-5 123  
Conversion of methanol and isobutanol to MTBE 223
- ZSM-type catalyst  
n-Hexane aromatization on synthetic gallosilicates with MFI structure 205
